For patients without statutory insurance in Switzerland or EU:

CHF 530 per treatment

(excl. Erythropoetin, special medication, additional laboratory tests)

Billing:

Persons from the EU area incl. Switzerland: We settle accounts directly with your insurance provider if you bring along your European Health Insurance Card (alternatively form E 112 from your health insurance provider), as long as you do have a statutory insurance. For privately insured persons from the EU area: payment before treatment.

Persons from outside the European Union (EU): Payment by credit card upon arrival before treatment. (We recommend that you check with your health insurance provider at home before you leave so that you can claim back the costs after your return).

Documents needed:

- Current medication and dosage
- Latest dialysis protocol, incl. machine settings and dry weight
- Hepatitis B, C, or HIV serology
- MRSA swab (not older than two months)
- List of diagnoses, and last laboratory results
- Covid-PCR-test, not older than 72 hours (status March 2021), for more accurate information please contact the dialysis centre promptly. Covid vaccination desirable.
